Short Bio:

Fucksia is an Italian glitch pop musician inspired by German and Icelandic artists such as those signed by the label Morr Music and the bands Sigur Rós and Múm. He produces sweet and melancholy melodies to listen with your eyes closed. This project was born as a game with no serious intentions and it continues to be so, Fucksia produces music to be listened in small environments like a "little bedroom", using noises and jingles as his tools.

Short bio (ITA):

Fucksia è un musicista campano dedito al glitch pop di matrice tedesca ed islandese. Ispirato dalla Morr Music, da Sigur Rós, Múm e affini, ricrea melodie dolci e malinconiche da ascoltare ad occhi chiusi. Nato come gioco e vissuto come tale, Fucksia produce musica da "cameretta", piena di tintinnii e rumori.
